

Corotop BAND

One-sided tape for membranes

The single-sided tape made of high vapour permeable PP vlies and acrylic dispersion. It maintains high vapour permeability of the foil even in the repaired damaged place. It is resistant to UV-rays.

Advantages

- ✓ high vapour permeable
- ✓ effectively repairs damages
- ✓ universal- to be used on both smooth and rough surfaces
- ✓ weather-resistant

Application

- ✓ for bonding products based on polypropylene
- ✓ for fixing damages in foils based on polypropylene

Characteristics

Material	polypropylene, acrylic adhesive	Peel strength of joints	≥10 N/25 mm
Colour	grey	Elongation	40 %
Length	25 m	Temperature of application	+10°C to +30°C
Width	50 mm	Temperature resistance	-30°C to +100°C
Thickness	0,50 - 0,53 mm		

Installation

1. Clean the surface from dust and other contamination.
2. Do not tighten the tape on the bonding surface.
3. Observe the recommended temperature for using.

Storage

The product should be stored in the manufacturer's original packaging, in dry, covered areas. The product should be transported in covered means of transport, secured against damage.

Packaging

Quantity per box (pcs.):	12
Quantity on a pallet (box./pcs):	60/720
